Trunnell's KY Bourbon Fudge, Medium Box
Old Hickory Bourbon-Que Sauce

Trunnell's Bourbon Balls Made with Owensboro's own Green River Distilling Company.

The Green River Distillery, now restored to its former glory, is flowing with Green River Kentucky Straight Bourbon Whiskey, a glowing, amber example of Kentucky craftsmanship. It's a rounder, smoother, higher rye bourbon whiskey blend made with corn grown in the same Kentucky countryside and the same limestone-filtered water that J.W. McCulloch used in his secret recipe, aged at least four years under the same warm Kentucky sun.

BOURBON IN OWENSBORO

Daviess County—where our distillery resides—has a rich bourbon tradition. In fact, a distillery operated in the county as early as 1805. Owensboro has been a hub for bourbon production because of its location along a rail line and waterway, its tremendous limestone water source, its extensive oak forests, and because local farmers have always produced a great deal of corn. The location of the Green River Distillery has been producing Bourbon Whiskey since 1885.

This Kentucky straight bourbon whiskey from Owensboro Distilling Co. celebrates the rich history of distilling in Owensboro. Refined, smooth and sweet, this whiskey is made with 100% Kentucky-grown corn and was developed in collaboration with the Kentucky Corn Growers Association.

Trunnell's Bourbon Balls are made with the same care and attention to detail. A three step process that takes 2 and a half days to complete is used to make every hand crafted Kentucky Bourbon Ball so naturally we wanted to use only the best and local ingredients.
